

Merlot DOC 2017 Viile Metamorfosis

TAN & NS

WINE IMPORTERS

Story of the wine:

Viile Metamorfosis brand includes multiple grape varieties, both Romanian and international, a great example of wines produced out of our vineyards located in the Dealu Mare region. It consists mostly of mono-varietals like this one, but it also includes a few blends. The winemaking style focuses on stating out the natural characteristics of each variety and its adaptation to our terroir.

Wine maker Fiorenza Rista, an Italian wine maker from Piedmont Italy took his opportunity in 2012 to come and explore Romanian soil and grape varieties. With an extensive wine making background in Barolo & Chianti his skills are clearly shown in this range of wines!

Varietals:

100% Merlot

Area:

Dealu Mare, Romania

Av. age of the vines:

15-20 years

Ageing:

Grapes are manually picked at the end of September. Winemaking took place in stainless steel tanks, where the fermentation happened at a temperature of 28 - 30°C. The pickling process took 3 weeks to end, thus gaining an intense colour and strong-tasting notes. Then transferred into small barrels where the malolactic fermentation happened, and it stayed here 12 months for maturing French oak barrels.

Descriptions for Wine List:

Dark red with a violet hint. Intense nose with flavours of underripe cherry and prune, combined with light spices. Medium body, elegant and well-balance. The finish is spot on with long flavour intensity and subtle alcohol suspends the drinkability to an elegant level.
